The Advanced Roadside Impaired Driving Enforcement program was developed by the National Highway Transportation Safety Administration with input from the International Association of Chiefs of Police Technical Advisory Panel and the Virginia Association of Chiefs of Police. ARIDE was created to address the gap in training between Standardized Field Sobriety Testing and Drug Evaluation and Classification Programs.

This course will offer additional information to law enforcement officers on detecting impairment caused by more than just alcohol. Often law enforcement officers who have not received advanced or in service training regarding drug impairment tend to not be able to identify these characteristics and oftentimes release impaired drivers. Once an officer completes this training, he/she will be more proficient with the 3 battery of tests (HGN, WAT, OLS), and will have a broader knowledge of drug impairment indicators. Students will also become more familiar with the DRE program and its function, thus facilitating better communication and transfer of critical roadside indicators of impairment to the evaluating DRE officer for a more complete and accurate assessment of impairment.

ARIDE is a 16 hour training course taught by DRE instructors or SFST instructors who are also DRE's. The training will be conducted under the control and approval of the DEC Program state coordinator.

This course encompasses information and techniques for addressing the drug and alcohol impaired driving problem. Much of the classroom training will be devoted to hands on practical exercises.

The following topics will be addressed:

- Update of the Standardized Field Sobriety Testing Battery
- How drug impaired driving affects our communities
- SFST Proficiency Examination
- Drugs in the human body and the impairing effects they may have
- Seven categories of drugs identified by the DEC Program
- Additional sobriety tests that will provide an expanded knowledge of detection to law enforcement
- Enhanced prosecution of drug impaired drivers

This course has been certified by the Illinois Law Enforcement Training and Standards Board. It is not reimbursable by the ILETSB.

This course will be taught by: Certified DRE instructors.

This 8 hour program has been designed by the Illinois Holocaust Museum and Education Center to provide students with an understanding of the importance of democracy and law enforcement and identifying abuses of power and recognizing hate crimes.

The Brill Law Enforcement Action in Democracy (LEAD) training is a program designed by the Illinois Holocaust Museum & Education Center, where Illinois law enforcement officers participate in an intense day of active learning at the Museum, exploring the meaning and importance of democracy and law enforcement through the lens of the Holocaust.

Participants will understand that changes in government policy and law shifted traditional functions of policing in German society to implementation of human rights abuses and genocidal programs represented as national security and national defense priorities. This shift was incremental, and participants will be able to assess the effect of societal, occupational, and personal factors as well as changes in the legal and political framework of police activity on the decision making of individual police officers during the Nazi era.

Historical case studies and contemporary scenarios will extend participants' thinking and provide the opportunity to explore and discuss more in depth connected themes of moral and ethical decision making; social responsibility; stereotyping and discrimination; and the abuse of authority.

The LEAD training will motivate and engage participants to identify, empathize and connect with the individuals, the human beings, they are committed to protecting – valuing all lives and recognizing the rights of all peoples.

This course is presented by the Illinois Holocaust Museum.

Topics to be addressed include:

This advanced communications course will assist officers in responding to calls in which individuals are overcome by stress, symptoms of mental illness, or are in highly excitable states of mind.

Depressed, suicidal, and actively psychotic individuals often escalate their behavior when officers arrive on scene. This requires officers to adapt with a different set of communication strategies to slow down and gain control of these intense situations.

This course seeks to gain voluntary compliance without the use of force and is based on crisis intervention team models used by established police teams operating in some U.S. cities. The scenario based practical exercises conducted during this course would benefit any line officer as well as officers who may have some crisis negotiation training but need more experience.

Topics to be addressed include:

- Building rapport, paraphrasing and using emotional labeling
- Active listening for the emotions of persons in crisis
- Influencing behavior using reflective statements
- Safety, cover, and containment issues
- Developing non threatening body language, words, and silence

****Effective immediately, students will no longer be permitted to bring or use Sig Sauer P320 pistols in any NEMRT training course. Please make arrangements to bring an alternative firearm.****

This one day, 8 hour program has been designed by Chief (ret.) Jeffrey Chudwin, J.D., Deputy (ret.) Kimberly Heath Chudwin and Chief (ret.) Daryl Howell to train student officers how to select and properly mount duty handgun pistol optics – know as RDS or Red Dot Sights.

The current trend in the adoption of these duty RDS pistol optics requires the ability to understand the mechanical issues related to the mounting or securing of the optics to the pistol slide. Repeated failures of these optics due to improper installation has been observed in current law enforcement handgun skills classes that the authors currently instruct through the MTU system.

Upon completion of this course of study, the student officer will have the foundation knowledge of the required tools and specifications to properly mount and maintain the duty handgun RDS optic.

Additionally, the student officer will engage in a series of duty handgun courses of fire that illustrate the usefulness and effectiveness of the duty handgun RDS pistol optic. These drills will enhance the student officer's ability to effectively and accurately respond to variable distance deadly force threats; from close quarters to extended distance as may be found in schools and large workplace locations. Shooting skills that focus on safe and effective firearms handling under stress are combined with the understanding of current legal standards, legislative training mandates, and the foundation legal, ethical, and tactical concepts of the use of deadly force.

This training establishes foundation defensive firearms skills that enhance the student officers use of deadly force decision making abilities and tactical first responder skills using the duty handgun equipped with the RDS – pistol optics during law enforcement duties.

IMPORTANT: leave all loaded / live fire weapons and ammunition locked in your vehicles. If you need to unload a handgun for the class, we will do so on the range. Do NOT unload firearms in or around your vehicle.

All handguns used in the class will be inspected prior to the class start to ensure there are no loaded handguns or ammunition in the training room.

If you want to bring a second pistol to work on, you can do so.

This 1 day, 8 hour program has been designed by Richard E. Sims, MSME, MSMT, CTP with guidance by Shahna Richman, former Police Detective, Retired Special Agent, FBI and owner of Richman Forensic & Security Consulting, LLC. The program will provide students (through experiential active learning) effective skills, techniques and tools officers can use with their professional and personal stress, fears, anxiety and trauma. The knowledge and skills taught are designed to be used in an officer's professional and personal lives and relationships.

Through this 8 hour program, officers will learn Somatic (Body/Mind) tools and approaches to regulate and monitor their professional and personal stress, fears, anxiety, and trauma.

The lessons are designed to increase an officer's resiliency (the ability to regulate and bounce back from an emotionally charged experience) enabling them to move more smoothly and efficiently from situation to situation. The knowledge and skills taught are created for use in officer's professional and personal lives and relationships.

This is not a course on theories, but one that teaches concrete approaches and skills through experiential active learning. Students will experience body/mind ways of working with their distress responses, learning to control and regulate these protective functions in conscious productive ways.

Students will gain methods of achieving a calmer, more alert and open state with the ability to effectively respond to a situation instead of just blindly reacting through hyper vigilance.

Students will also learn skills and techniques based on the latest science involving physical pain and how the body and mind can regulate the pain that influences their emotional states.

Some topics covered:

- Management and Regulation of Stress, Anxiety, Fear and Trauma
- Self Care and Officer Wellness
- Professional and Personal Relationships
- Resiliency
- Performance Enhancement
- de-escalation
- Physical Pain Management
- Reduction of Officer Suicide

This is achieved by using Somatic Education, Body Awareness, Mindfulness, Breathing, Meditation, Embodiment and the principles of Aikido. These disciplines have been specifically combined to deal with the professional and personal issues encountered by first responders and members of the law enforcement community.

The lessons are designed to be used professionally and personally.

FOCUS™ 8 hour Handgun Red Dot Optics End User Course is a meticulously designed program that trains police officers in the application of red dot optics on handguns, focusing on the principles of safety, accuracy, and effectiveness.

This one day training is developed by Offset Tactical and is taught by an instructor with 20+ years of military experience in combat operations and firearms. All of our instructors come from SWAT or military backgrounds. This one day course begins with an introduction to red dot optics, exploring different types of red dot sights, their functionalities, advantages, and limitations. The session also includes instructions on mounting and zeroing the red dot optics on a variety of handguns to ensure optimal performance.

Transitioning from iron sights to red dot optics can be challenging. Thus, a key component of the course focuses on modifying grip, stance, and sight picture for effective red dot use. This includes acquiring the dot, tracking targets, and transitioning between targets. In addition to this, a new trigger pull process will be taught to students that will give them confidence and proficiency when shooting their firearms.

The course emphasizes practical skills, with a significant portion of the day dedicated to live fire drills. These exercises are designed to reinforce the brief classroom instruction that is covered, with drills focused on dot acquisition, target transitions, shooting on the move, and engaging multiple targets.

Finally, we cover basic maintenance and troubleshooting for red dot optics. Students will learn to handle common optic malfunctions, maintain their equipment, and manage battery life for optimum performance.

With the emerging importance of red dot sight systems in tactical environments, understanding and mastering this technology is paramount.

Requirements:

- Any weapons brought to the training **MUST** already have the red dot optic installed by a qualified armorer.
- RDS Pistol with optic height iron sights, Duty belt with **CORRECT** holster for gun, 3 magazines minimum.
- 400 rounds of range ammo.

This one day, 8 hour course has been designed to provide basic ground fighting maneuvers and counter maneuvers for law enforcement officers regarding the mount control position.

COURSE OVERVIEW: The 8 hour course is part of the Ground Fighting and Control Tactics Series. Officers will learn to escape, control, apply joint locks, and handcuff offenders in the mount position through the principles of body positioning and leverage. In today's culture, increasing awareness of mixed martial arts techniques are having a direct impact upon what officers are likely to face during ground altercations. It is known that 90% of fights go to the ground and officers must be prepared for resistive persons who wish to assault them with these techniques.

This one day course will introduce Officers to the mount control position, and teach them simple and effective ground fighting counter maneuvers with regard to size and strength, including:

- Controlling positions
- Striking positions
- Submission moves
- Weapon retention
- Handcuffing skills
- Escapes

The instructors for this program are Sergeant John Hutson (Des Plaines Police Department) and Sergeant Dan Meshenky (South Elgin Police Department). Both instructors hold advanced ranking in Gracie/Brazilian Jiu Jitsu, a discipline that has greatly impacted martial arts training since the early 1990's.

PLEASE NOTE: Students are required to wear workout clothing and should bring their duty belts to class.

The phenomenon of the school shooter in our schools is at an all time high. With the advent of depression, bullying and suicidal tendencies as a result, first responders in our schools and police departments must be trained to handle these situations with immediacy and great sensitivity. The goal MUST be to identify and intercept the criminal activity before the school shooter is able to take action. There are times when a student presents an incident of rage and a wanton disregard for human life by conspiring to make themselves famous through death and destruction. However, many students, school administrators and/or LEO minimizes the comments and postings of the school shooter. We often train our youth "If you see something, say something." It is what Schools and Law Enforcement do with that information that may predict the outcome.

The reason why LEO's and School Officials continue to "brush off" the student is due to the lack of training and understanding of Social Media and Internet Investigations. This class will train the School administration and Law Enforcement on the protocols set forth in dealing with this type of school violence.

The goal of this training is to empower school administrators and Law Enforcement how to gather digital evidence against the aggressor so they may find out who the perpetrator is and take action immediately after the comment or posting is made by the aggressor. The LEO and/or School Administrator will learn the fundamentals of investigating social media and internet related crimes that deal with domestic terrorism. We will use the Electronics Communications Privacy Act (ECPA) to our advantage in identifying the person responsible for posting the online threats BEFORE the shooter has the opportunity to kill our children.

Techniques**

This 8 hour program has been designed to provide students with the necessary information and skills required to teach fellow officers at their respective agencies the proper use of Oleoresin Capsicum pepper spray.

Topics to be addressed include the following:

- O.C. selection recommendations
- Effects of O.C. on the human body and probable medical implications
- Proper use of O.C.
- Tactical follow up and decontamination practices

Additionally, students will review case law pertaining to the use of O.C. and how to most effectively and safely conduct exposure training. Practical exercises and proficiency testing examples will be demonstrated.

PLEASE NOTE: Students will be required to experience an O.C. exposure unless documented proof of previous training exposure can be provided. Students should wear appropriate clothing for participating in practical exposure exercises.

PLEASE NOTE: NO FUNCTIONAL WEAPONS WILL BE ALLOWED IN CLASS. For those students participating in the exposure portion of the training there are numerous things that you'll need to know, and items that you'll need to bring with you, to make this training go as smoothly as possible.

- If you wear contact lenses you will need to remove them prior to the exposure. If you choose to wear them to training and remove them prior to the exposure remember to bring whatever supplies you need. Additionally, it is not advised that you put your contact lenses in for 24 hours following the exposure, so please plan accordingly.

- If you use an inhaler you should bring it with you. Although OC is not likely to cause an asthma attack, some people may experience a high level of anxiety which could cause them the need to use their inhaler.

- You will need your duty belt including handcuffs. NO WEAPONS will be allowed to be worn during the exposure portion of the training.

- Bring a change of clothes with you. During the decontamination process you (and your clothing) will likely become extremely wet. Keep this in mind when selecting your clothing.

- You might consider bringing toiletry items to assist in cleaning yourself up after the exposure (i.e. towel, soap, etc.)

- It is suggested that you limit (or avoid) hair products the day of training as your hair will get wet during decontamination and those products will likely cause additional irritation. The same applies for cosmetics/eye make up.

- While most people will totally recover from the effects of OC within 45 minutes, everyone reacts differently. Your safety is of the utmost importance, so we will need to monitor each person's reaction and recovery closely. Therefore, you will not be allowed to leave the training site for any reason (following the exposure) until class is over.

- Since you will be spending a considerable amount of time outdoors...dress appropriately for the weather.

- If you have had eye surgery within the past 12 months (i.e. Lasik) you will not be able to participate in the exposure training. Please provide documentation of such surgery. The instructor certification provided through this training will be valid for three years.

Officers are becoming increasingly more vulnerable to suit under Section 1983. Officers attending this class will learn how to avoid these suits and, if sued, how to avoid liability. Please note: It is strongly recommended that officers attending this program should already have completed an Arrest, Search, and Seizure course of instruction.

Mandates:**

**De-escalation Techniques, Law

Two Officer Tactics give partners or shift mates confidence during the control and arrest of a potentially violent subject. Years ago the team tactic used was the "Polyester Pile On". There was no structure to it other than the officer's using gravity to control the subject. Unfortunately many times officer's were being struck by their own partner or even worse handcuffed by mistake. This old tactic is still used by many departments. I've found that once partners, shift mates or even entire departments train with these new tactics it renews their confidence in their skills and they even look forward to future training.

This course will cover two officer takedowns, ground control to handcuffing. It is strongly suggested that three officers from the same department attend this course at the same time as they will rotate through positions including being the "Bad Guy".

All tactics and techniques are based on the fundamentals on positioning and leverage. This is not a control system dependent on joint manipulation or pressure points.

*** SUBJECTS WILL BE PLACED IN A RECOVERY OR SEATED POSITION
IMMEDIATELY AFTER BEING HANDCUFFED AND SEARCHED.**

This course will be taught by: Kerry Murakami.

Mandates:**

With “groundfighting” becoming the rage, law enforcement seems to have forgotten that every encounter starts standing. Many departments have developed a “groundfighting” block but never address vertical grappling. They are missing a huge portion of the fight. Officers need the proper tactics to stay on their feet and bring the fight to the ground when it's appropriate. Once on the ground we'll cover the basics of ground control to handcuffing. It is strongly suggested that three officers from the same department attend this course at the same time as it is a physically demanding course and it will allow one officer to rest while the other two work.

All tactics and techniques are based on the fundamentals on positioning and leverage. This is not a control system dependent on joint manipulation or pressure points. This course will provide students with the tactics and techniques necessary to effectively control resisting subjects on the vertical plane.

This course will be taught by: Kerry Murakami.

Public Act 79-652 states, "Possession and use of a firearm, in connection with official duties of a peace officer in Illinois, is conditional upon participation and successful completion of 40 Hour Firearms Training."

Your agency supervisor has scheduled you to participate in a 40 Hour Mandatory Firearms Training Program. This program satisfies the requirements of the Illinois Law Enforcement Training Standards Board.

Training includes classroom instruction and weapons practice at a firing range with instructors certified by the Illinois Law Enforcement Training Standards Board. It is your responsibility to read these conditions thoroughly and adhere to all of them. These include:

1. Report to training as instructed by your Chief, Sheriff, or Training Officer
2. Safety regulations of the range, weapon conditions, and ammunition use will be directed by the Range Master and his assistants.
3. The Range Master will instruct and enforce strict regulations for safe handling and use of weapons at all times. Anyone who endangers the safety or well-being of others will be ejected from the premises. This includes horseplay, carelessness, or any other inappropriate behavior.
4. You must bring your own weapon, ammunition, and required equipment. The Range Master and his assistants will not provide, repair, or replace any equipment. Please make certain all equipment is in proper working condition.
5. Classroom instruction is held in the evening. You are required to bring notebooks, pens or pencils. *DO NOT BRING WEAPONS OR AMMUNITION TO CLASSROOM SESSIONS.*
6. Range instruction is held on Saturdays and Sundays. **You are required to bring the following to the range:**

Re-testing for a failed written examination or a failed range qualification will be handled in accordance with the policies of the Illinois Law Enforcement Training Standards Board.

Registration Information

REGISTRATION INFORMATION

Pre-Registration

NEMRT courses are filled on a first-come, first-serve basis, based upon the Pre-Registration forms we receive. Typically, our courses quickly fill to capacity. Once a class has reached its capacity of students, "Stand-By" lists are created.

Students on stand-by lists may not attend our programs. All students must first be confirmed by our Registrar's office. After receiving confirmation, students may attend the training program, where they complete an actual registration form. Confirmation and stand-by lists are distributed weekly by the Registrar.

Please keep in mind that courses fill quickly. Pre-register your students early!

Attendance Policy

The Illinois Law Enforcement Training and Standards Board (ILETSB) requires that all attendees of a course for which they will receive a certificate from the Board be present for 90% of the course. For example, one must be present for 36 hours of an ILETSB-certified 40 hour course. NEMRT has adopted that policy for all of its training programs, allowing attendees to miss no more than 10% of any course, with a legitimate excuse (family emergency, need to appear in court, reassignment, etc.) and still receive a NEMRT certificate.

Cancellations

When we receive a cancellation, students are moved from the stand-by list to fill the vacancy. We then notify your training officer that the student has been moved from stand-by and confirmed to attend the program.

Occasionally, training officers fail to notify us that an officer will be unable to attend. When this occurs, students on the stand-by list are denied an opportunity to attend the training they need.

To avoid this situation, please contact the Registrar's Office as soon as possible regarding schedule conflicts and cancellations. With this information, we are able to move officers from stand-by lists and into course rosters. This increases both the number of officers receiving training and the overall effectiveness of your training dollars.

Please note in the ***Course Description*** section the statements about cancellation deadlines and billing for each class. Usually, the deadline is 7 days prior to the start of the course unless otherwise noted.

ADA Accommodation

If your student is covered under the Americans with Disabilities Act, please notify Deputy Director April Morris (630) 896-8860, ext.104 to establish reasonable accommodations.

Questions?

If you have questions regarding confirmation or stand-by policies, please contact our Registrar's Office at (630) 896-8860, ext. 102.

Part Time Training Info

Basic Part-Time Law Enforcement Officer Training

In accordance with Public Act 89-170, all part-time sworn police officers in the state of Illinois are required to successfully complete a Basic Part-Time Law Enforcement Officer Training Course. North East Multi-Regional Training, Inc. is offering a choice of two different basic training academies to fulfill the requirements of this act. *The tuition shown below for each of these academies is eligible for reimbursement through the Illinois Law Enforcement Training Standards Board.*

Web Based Academy

Through the efforts of the Illinois Law Enforcement Training Standards Board, the ILETSB Executive Institute, and the Center for Applied Internet Technology (CAIT) at Western Illinois University, the STTAR program has been redeveloped and updated to deliver part-time basic training in a cutting-edge distance learning format using the internet.

Approximately 212 hours of instruction are delivered via the internet, allowing students to choose the times most convenient for them to independently complete an average of seven hours of training per week through the internet. This training is supplemented with eight-hour classroom sessions conducted on Saturdays, where the students receive lectures from instructors who are experts on the subject matter, and to participate in performance-based practical exercises.

This program, with the addition of the 40 Hour Mandatory Firearms Training course, meets the 400 hour curriculum for law enforcement basic training. In total, the program takes approximately 9 months to complete.

The start date of next Web Based Academy is to be determined.

Tuition: \$1,100.00

Students are required to successfully complete the P.O.W.E.R. test to enroll in the Web Based Academy. NEMRT offers the P.O.W.E.R. test prior to the orientation for each program. There is a \$35.00 fee to take the test. Exact dates and locations will be announced.

The 40 Hour Mandatory Firearms course is not included in the Web Based Academy. Therefore, we have arranged a special firearms course reserved for those part-time officers enrolling in the academy who have not yet been certified. Tuition for the course is the standard in-service tuition of **\$175.00**. Please indicate on the pre-registration form those officers who are enrolling in both the academy and the firearms course. The dates for this course will be announced.

Contact Bill Collins, Part-Time Academy Director, for required enrollment paperwork or with any questions. He can be reached at (630) 896-8860, x108, or via email to bill@nemrt.com.

IN-HOUSE TRAINING

This course catalog reflects the training needs of agencies throughout our membership. However, we realize that your department may also have unique, sudden, or critical training needs that may not be addressed among these courses. We also realize that you may not have the time or resources necessary to develop customized, high-quality training programs. To meet these unique needs, NEMRT staff is available to develop In-House programs.

Customized Training

In-House programs provide customized training, designed exclusively for your department's needs and scheduling demands. They can be a valuable means of meeting your departmental training goals effectively and efficiently.

NEMRT staff will develop your curriculum, contract with instructors, compile handouts, process registrations, and issue training certificates. Many area departments have taken advantage of this valuable service. In fact, NEMRT develops over 200 In-House training programs a year!

Standard Curriculum

Some agencies have used In-House programming not only for customized curriculum, but also to deliver our standard in-service programming to their entire departments.

If you have any questions about our In-House programming services, please call Simon Aniello, Program Manager for Specialized Training, at (630) 896-8860, x115, or via email to Simon@nemrt.com. Simon will be happy to discuss your needs and provide valuable training alternatives.

THE ASSIST PROGRAM

The Illinois Law Enforcement Training Standards Board administers the Intergovernmental Law Enforcement Officers In-Service Training Act (P.A. 82-674). This Act, coupled with the Traffic Surcharge and Criminal Conviction fund, provides the structure and financial support for a unique state\local partnership. This partnership provides decentralized delivery of in-service training within commuting distance of virtually every law enforcement and corrections officer in the state.

On Jan. 1, 1983, The Illinois Law Enforcement Training Standards Board launched A Statewide System of In-Service Training, known as the ASSIST Program. Within five years, the Mobile Team Unit conducted over 7,000 courses for over 120,000 in-service practitioners. The ASSIST Program has since gained national recognition as one of the most cost-effective and comprehensive in-service training systems in the United States.

The objectives of the program are:

- To encourage local law enforcement and corrections officers to upgrade their knowledge, skills, and techniques pertinent to the law enforcement profession
- To provide local law enforcement officers with training opportunities within their own locales and on flexible schedules
- To provide quality training on topics of instruction centered on specific training needs

NEMRT MEMBERSHIP

NEMRT has strived to maintain an excellent level of training at a low cost for you, our member agencies. We have not had a membership dues increase for the past 8 years. During those eight years, like you, we have dealt with rising personnel and operational costs and stagnant revenues. Increased demands on the Traffic and Criminal Conviction Surcharge Fund will keep our Police Training Board grant stagnant for the near term. It may even decline. Therefore, to maintain the quality of our training and to keep up with current financial demands, the NEMRT Advisory Board of Directors has approved an increase in membership dues from \$90 to \$95 per officer, effective July 01, 2015, for FY 2016.

In addition to payment for all full-time officers, member agencies may select from three payment options to customize training for their part-time, reserve, auxiliary, and civilian employees.

1. You may pay for all full-time, part-time, reserve and auxiliary officers, and civilians within your total membership at \$95.00 per individual.
2. You may pay for all full-time officers and only a specified number of your total civilian, reserve, part-time, and auxiliary officers. The number chosen is entirely up to you.
3. You may pay for full-time officers only and pay non-member tuition fees for those classes attended by your civilian, reserve, part-time, and auxiliary officers.

As an added benefit, members employing more than 125 full-time officers need only pay for the first 125 officers. This maximum membership fee of \$11,875.00 entitles all full-time officers, not merely the first 125, to unlimited training through North East Multi-Regional Training for the membership year. Membership fees would still need to be paid for any part-time, reserve, or civilian employees you wish to include.

Occasionally, courses are offered that require tuition from member and non-member departments alike. These fees arise from the special equipment that may accompany the course, or from the expense arising from bringing in an out-of-state expert for timely courses of a technical nature. However, member department tuition fees are typically lower than a non-members.

MEMBERSHIP CATEGORIES

NEMRT's voting membership consists of municipal and county law enforcement agencies whose units of government have voluntarily signed an Intergovernmental Agreement, or have passed a Resolution and Adoption of existing Intergovernmental Agreements, which establishes "NEMRT, INC." as a mobile team in-service training unit. Member departments are invited to the Annual Election of Directors, held on the third Tuesday of March, to cast their votes.

Member department Intergovernmental Agreements are self-renewing and do not require annual processing unless membership is dropped for more than one year. Then the Agreements will be addressed as a new membership again.

Non-voting member departments are federal and state law enforcement agencies who are eligible to participate in regional law enforcement in-service training under the Illinois Intergovernmental Law Enforcement Officers In-Service Training Act, but are precluded from signing an Intergovernmental Agreement due to the structure of their governing rules. In such cases, department administrators may contract with NEMRT, Inc./Mobile Team Unit #3, to allow their law enforcement personnel to participate in the Region's in-service training efforts at an annual rate established by the NEMRT, Inc. Advisory Board. Non-voting member departments are precluded from serving on the Board of Directors or voting on matters that affect NEMRT, Inc./Mobile Team Unit #3 operations, policies, and/or procedures.

Non-member departments are federal, state, and local law enforcement agencies that decline formal membership in the ASSIST Program. They remain eligible to participate and attend in-service training under the In-Service Training Act, but are required to pay tuition as listed in the course descriptions. Non-member agencies are billed for attendance after the completion of each course.
